

## **20 April 2015 - Choosing the 5000 individual companies within NUS-RMI's selected PD coverage**

### **Introduction**

The RMI Credit Rating Initiative (CRI) has expanded its PD coverage of companies since 2012. We now include listed firms in Oman, Jamaica, Bangladesh, Bosnia and Herzegovina, Montenegro, Serbia and Tunisia in our rating universe. We have thus decided to expand the sample size of firms made available to new CRI users from 3000 to 5000. This document details the selection methodology of the 5000 companies. It provides an overview of the sample firms by economies. RMI PDs are available for over 60,000 exchange-listed firms in 116 economies with the term structure of default probabilities from 1 month to 5 years. Users who wish to access the broader PD universe of over 60,000 exchange listed firms may click [here](#).

The CRI focuses on providing credit assessments for publicly-listed companies within the US, Bermuda, Canada, 18 Latin American, 22 Asian, 16 African and 46 European economies, as well as 11 countries within the Middle East. Individual company assessments are provided in the form of an RMI Probability of Default (RMI PD). Implementation details can be found on our [website](#).

The Asian economies are: Australia, Bangladesh, China, Hong Kong, Indonesia, India, Japan, Kazakhstan, Malaysia, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Taiwan, Thailand, Vietnam, New Zealand, Cambodia, Macau, Mongolia and Papua New Guinea.

The European economies are: Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Greenland, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Macedonia, Malta, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russian, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom, Ukraine, Faeroe Island, Gibraltar, Guernsey, Isle Of Man, Jersey, Liechtenstein and Monaco.

African economies include: Angola, Egypt, Ghana, Morocco, Nigeria, South Africa, Gabon, Madagascar, Mauritius, Mozambique, Namibia, Sierra Leone, Tunisia, Tanzania, United Republic of Togo and Zambia.

Within the Middle East, RMI's coverage includes: Bahrain, Israel, Jordan, Kuwait, Oman, Saudi Arabia, United Arab Emirates, Azerbaijan, Iraq, Qatar and Sudan.

Latin American economies include: Argentina, Brazil, Columbia, Chile, Jamaica, Mexico, Peru, Venezuela, Bahamas, Belize, Cayman Islands, Curacao, Dominican Republic, Falkland Islands, Panama, Puerto Rico, Virgin Islands and Virgin Islands, British.

The selected companies represent a sampled showcase of the credit assessments derived from this initiative.

## **Objectives**

We adhere to 3 main criteria when selecting the companies to be included in the initiative:

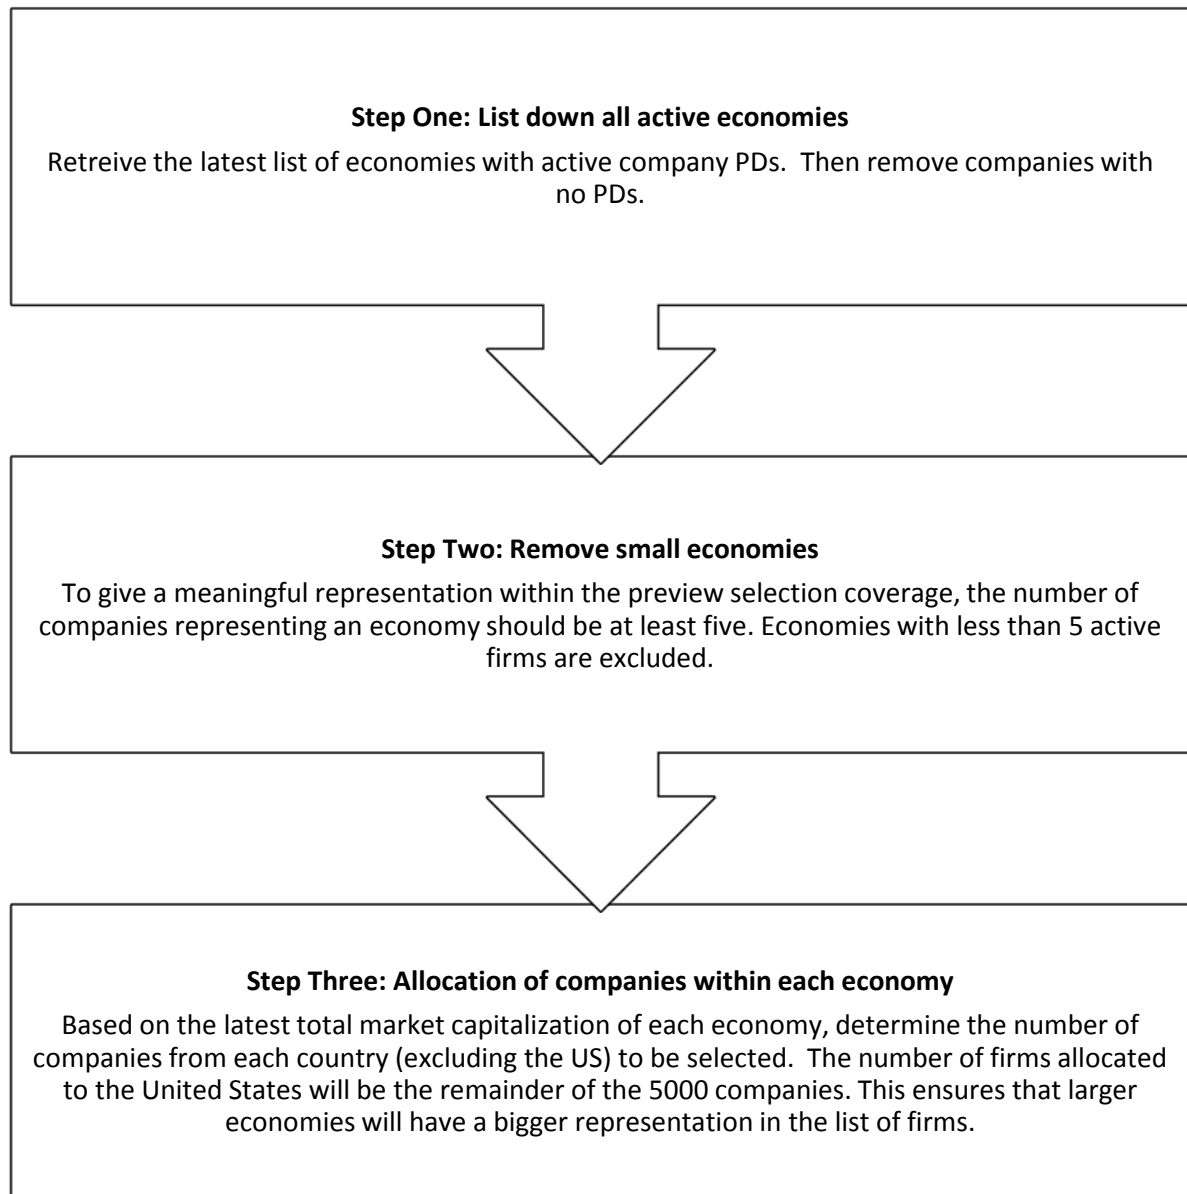

1. To have a representative sample of companies that reflects the largest companies within the economies of interest.
2. To display the range of NUS-RMI's credit ratings that characterizes the credit outlook for companies.
3. To capture the attention of the market audience through a sampling of noteworthy companies.

## **Selection Methodology**

The selection process begins by determining the number of economies in the 5000 universe. Economies with less than 5 active PD firms will be removed from the qualifying list of countries. Subsequently, the number of companies in each economy is selected based on the aggregate market cap of all firms domiciled in the country. Figure 1 displays the steps in detail below.

Countries with less than five PD firms are removed from the list of companies. To allocate the number of companies to each country, we use the overall market capitalization on 31 March 2015 as the country's weighting. In this manner, larger economies account for a greater portion of the list of 5000 companies. Every country will have a minimum of 1 company allocated to it and the United States will have the most number of constituents, given that it has the biggest market capitalization. Using this methodology, the final sample of firms with company forecast available on the CRI website includes 1715 companies from Asia, 1913 from North America, 126 from Latin America, 54 from Africa, 79 from the Middle East and 1113 from Europe. A detailed distribution of the selected 5000 companies is shown in Figure 2.

UK	1138	253	5.06%
Ukraine	33	1	0.02%

### **Monthly Update of the Selected Companies**

The current list of companies will be reviewed monthly, taking into account the latest market cap to monitor any major changes in the list. Examples of major changes include material changes in the market capitalization of an industry relative to peers due to new IPOs of major companies, and material changes in the market capitalization of a country relative to peers due to macro-economic changes.

### **Removal and Replacement of the Selected Companies**

Aside from the monthly review, a company can be removed if it is affected by a major event, such as bankruptcy, mergers, acquisitions, delisting from the stock exchange, or an extended period of trading suspension. In the event any of the above occur, the given company will be replaced by the company with the next largest market capitalization in the economy. Changes to the list of 5000 companies are stated in Appendix 1.

# **Appendix 1: Changes to the list of 5000 companies (Updated on May 22, 2015)**

Effective Date	Replaced Companies	Domicile	Reason	Action
1 April 2015	Corio NV	Netherlands	Acquired/Merged	Replaced with Corbion NV
2 April 2015	Salix Pharmaceuticals Ltd	United States	Acquired/Merged	Replaced with Tidewater Inc
2 April 2015	Aviv REIT Inc	United States	Acquired/Merged	Replaced with Chart Industries Inc
7 April 2015	Gtech Spa	Italy	Acquired/Merged	Replaced with ACEA SpA
7 April 2015	International Game Technology	United States	Acquired/Merged	Replaced with CARBO Ceramics Inc
13 April 2015	Friends Life Group Ltd	Guernsey	Acquired/Merged	Replaced with Soco International PLC
17 April 2015	Nutreco NV	Netherlands	Acquired/Merged	Replaced with Brunel International NV
